

## Binoculars

We give thanks for seeing and noticing all God made!

### You'll need:

- 2 paper tubes
- crayons
- strip of paper
- glue dots
- tape
- string

Decorate the strip of paper. Put the glue dots on one toilet paper tube and attach the other tube to the other side of the dots. Tape your strip of paper around both tubes. Make a hole on the edge of both of your tubes and tie the string onto your binoculars. You are ready to be a discoverer of God's creation!
