

Bubble Wands

- 1 Put 15-25 beads on the pipe cleaner and push them to the center.
- 2 When you have the desired number of beads on the wire, form a circle from the center of the pipe cleaner and twist the two wires together at the base of the circle using two or three twists.
- 3 Hold the two pieces of wire together and thread the beads onto both of the wire pieces at the same time. Keep adding beads until the wand handle is the desired length.
- 4 Curve the ends of the wire around the bottom bead so that it holds the beads on the wand.

You'll need:

- pipe cleaner
- beads

Use store bought bubble solution or make some using this recipe:

- 6 cups water (distilled is best but tap water is fine)
- ½ cup Blue Dawn original dish detergent
- ½ cup corn starch
- 1 tbsp baking powder
- 1 tbsp glycerine

Put all the ingredients in a 4 litre milk jug. Shake well and let sit overnight; it will be ready to use in the morning.
