

# camp@home

## Camp@Home?

### How is this a thing?

Strange times call for appreciating and discovering things in a new way! So, here you are, holding a **camp@home** kit, filled with activities created for you and the people in your household in mind. United Church Camps, overnight or day camps, have been a big experience for many people. If this is your first experience of camp, welcome! If your summer feels really, really, REALLY strange without participating in some kind of camp this summer, we hope this kit will have some experiences you can share with your family, help you to stay connected and build more memories!

This year's **camp@home** kit is all about discovering God's amazing, beautiful, creative world.

The best parts of camp usually are about being outside in the beauty of God's world, creating, storytelling, sharing meals together, wondering, praying, playing games and much more. The best parts about this **camp@home** kit is that there are activities that cover ALL those things, including stuff to do by yourself or others in your bubble!

PS – you are holding this kit because a church community or a United Church camp LOVES you and wants you to have some fun in the sun this summer! Cool, eh?
