

Spend some time outdoors and see what leaves are on the ground. Take time to explore colors and look at the different shapes and sizes of leaves.

1. Lay the leaves on the table and place the white paper on top of them.
2. Press the paper tightly and rub side of the crayon on to the paper.
3. If you like to make colorful leaves, you can rub another layer of color or color a separate part of the leaf.
4. Have fun and create a collage of leaves.

## Leaf Rubbings

### **You'll need:**

- White Paper
- Crayons
- Leaves
